[From the Woodford Pennant.] The Southern Rights Convention.

Despite the insufficiency of the notice, and the exceeding inclemency of the day, the gathering at Frankfort on Wednesday of the friends of Southern Rights was large and respectable. We have attended most of the Conventions held at the State Capital during the past eight years and have seen none embodied more talent, worth, and patriotism. Fully two thirds of the counties were represented by able and respectable gentlemen. In point of numbers, of influence and posi-tion, the Convention has never been surpass-Not only did the greatest unanimity of bers of the Legislature and others having feeling prevail, but there was an exhibition of business with Mr. Clint. McClarty, Clerk of enthusiasm in behalf of the right that was the House, and Mr. J. C. Wickliffe, Clerk of gratifying and commendable. The best and lighest ability of Kentucky was represented. In the selection of a President the Conven-

Resolved, That the several States composing the United States of America are not united on the principles of unlimited submission to their General Government, but that by compact, under the style and title of a Constitution for the United States and of amendments thereto, they constituted a General Government for special purposes delegated to that government certain definite powers, rerving each State to itself the residuary mass of right to their own self-government; and that whensoever the general government assumes undelegated powers, its acts are unauthoritative, void, and of no force; that to this compact each State acceded as a State, and is an integral party, its co-States forming as to itself the other party. That the govern-ment created by this compact was not made the exclusive or final judge of the extent of the powers delegated to itself, since that would have made its discretion, and not the Constitution, the measure of the powers; but that is, in all other cases of compact among parties having no common judge, each party has an equal right to judge for itself as well of infractions as of the mode and manner of redress: and whereas, on the 10th day of December last the people of Lyon county in convention, without distinction of party, unani-

be injured by the late pasturing.

Gallatin (Tenn.) Courier, March 20.

The wheat crop of this country was never more promising than at present. A favorable season from this time on will insure an overwhelming crop.

Lebanon (Tenn.) Herald, March 20.

The wheat crop we are told is unusually promising. A large amount of land has been devoted to the crop, while the season has been highly favorable, and the plant is well advanced and thrifty. An early and liberal harvest is confidently expected. Fayetteville (Tenn.) Obs. Mar. 14.

Wheat and rye are said to be very promising, and the farmers seem to be rejoicing at the prospects ahead. We have had some severe frosts the present week, but if we have no more this season, there will be a bountiful yield of fruit this year.

Sparta (Tenn.) Constitutionalist, Mar. 15.

The farmers of Illinois have every reason to be satisfied with the appearance of the wheat crop at this time. We have reliable information from more than twenty counties of Southern Illinois, giving assurances that during the past ten years the wheat fields in March have never appeared so promising as now. The growth is admirably well set, covers the ground well, is healthy and strong, encouraging large expectations of full granaries at the close of the season. The amount sown last fall was unusually large, and 1861 bids fair to be as distinguished in Illinois for affluent wheat harvest as was 1860 for the plethoric corn crop in Central and Northern Illinois.—St. Louis Rep. Mar. 16. We have no material change to make in

our report from last week's issue. The weather for the past week has been a continuation of the two weeks previous. Farmers are having unusually favorable weather for planting and all out-door work. The slight frost has not, that we could learn, done any great damage, although it is supposed that some fruit may be killed along the water courses. Macon (Ga.) Mess., Mar. 14.

In conversation with many of the farmers of Marshall county during the past week, we are happy to learn that the wheat crop of this county bids fair to be better than ever before. A large amount of land has been sown in wheat, and the winter has been so favorable for its growth that we may look for an unusually large crop. We would not be surprised to see Marshall exporting wheat and flour the coming summer.

Holly Spring (Miss.) Herald, Mar. 15.

From late personal observation in Oktibeha, in Choctaw, in Attala, and from the information we have from other counties in Central Mississippi, we entertain no doubt that the growing wheat crop in this portion and organized a meeting by calling Mr. Geo.
R. Merrell to preside, who, upon taking the condition ever known, and promises to yield counties will raise a sufficiency to do them

Kosciusko (Miss.) Chronicle, March 8. Our advices from all parts of the State are to the effect that the wheat crop is entirely uninjurned by the frosts, and that everywhere Col. J. P. McGoodwin being called for, addressed the meeting in his usually able man-harvest.—Detroit (Mich.) Advertiser.

From all parts of the State the most favorable accounts are received of the planting operations of the season. The rains, though late, were bountiful, and being followed by so much warm, dry weather, there has been a large amount of land sown on which germination and growth has been unusually rapid. At this time the prospect is favorable to there being as large a breadth of land sown, and as abundant a crop as we were favored with last season. The present active demand for our surplus product bids fair to leave the granaries of our State clean swept for the new crop, and already our farmers are look-ing abroad, speculating on the prospect that a foreign demand may have for the surplus of

the Federal Government. Resolved, That in the event of a called session of Congress any act passed having for its object the collection of revenue or retaking the forts in the seceding States would be regarded by Kentucky as "coercion," a declaration of war against the seceding States, would destroy all hope of a peaceful settlement of affairs or a reconstruction of the Union, and would at once force all slave States to make common cause with the South, and any demand by the President upon the State of Kentucky for troops to carry into effect such enactments, we hereby request the

Governor to entirely disregard. Mr. COFFEY moved to dispense with the rules requiring joint resolutions to lie one day on the table, yeas 38 nays 44.

A Specific for Hooping-Cough! A Specific for Hooping-Cough!

It is known by a few individuals in the counties of the Jefferson, Shelby, and Oldham that I have a remedy that effectually cures Hooping-Cough. If there are remedies in America or Europe that cures, it is not within my knowledge, (except the one I use.) Physicians tell the families they attend it can't be cured. I have no doubt they are candid in what they state. To get the medicine in use, and lull to sleep a deep-rooted prejudice, the faculty are invited to get the medicine, and save the little innocents whom they attend, and tell them no more it cannot be cured. by one of the ablest Chemists of the age.

This is altogether a new medicine, the result of modern discoveries in the vegetable kingdom, being an entirely new and abstract method of cure, irrespective of all the old and worn-out systems published by accomplished quacks to the suffering. Dr. Wright, well knowing the deception practised upon the uninitiated, felt it his duty at once to have this Elixir tested by the whole Medical Faculty, who, without even one dissenting voice, have given in their adherence to its perfect and undivided control over the whole physical man when his frame has been reduced, and when all other medicines known to the Pharmacopecia have been tried in vain. Long thought, years of patient investigation, and a nil desperandum determination, have crowned the Doctor's efforts, and he now offers the Elixir to suffering humanity as the only thing that can cure the following
